QUI STIONINGS. And if sometime you come sgain to greet The little child, and and a woman grown, stand ready to receive you as of old, Will you rejoice and be in heart more glad? Or will you let a few thoughts sadly stray Back to the thoughtless girl you used to know, who only laughed, or justing, lightly spoke

When you looked grave and would speak so erly And vexed you with her "artful acties nos ?" Whom oft you chid, but seemed to chide in veh Who would not always do your will-indeed Preferred to mind her independent self. But then again in low humility As awest and mild did seem as were the flower he al ways wore -trusting implicitly

The words you spoke, with earnest upward look A I nowledgeing herself in truth a child-Until you puzz'ed were to und rstand Herdifferent moods-their meaning e'er to kno And I ft her-leaving it with coming years p smoothly wind the tangled knotted skein Of many threads, some dark, some bright, you

thought, Medeup her chara ter So, if at last You come again, and find that Timeh a wrought The change you hoped, and that the childish Have all been dropped somewhere along.

And that a woman, only, now it is all Who listens to your words with a se and grace Then when you talk with one who able is To g asp the meaning of your deepest thought And give them wisestanswer, while she gains Your high respect and shows she has at last Learn of when to yield and when to hold he

I sek? Will you forget the playful laugh That once your only answer was, nor miss The girlish smile, the waywardness you tried In valu to mould—the maid n left behind Among the shedows of the slight past? stav. Alege in twilightle dim cabrage I must tou Wond'ring, I only ask with doubting heart.

OUR NEW YORK WERESPOND

TTAN NEW YORK, Oct 20, 1874 THE AMERICAN INSTITUTE .- The Amerisevents annual exhibition in the Rak, covering the block bounded by Second and Third avenues, and Sixty-third and Sixtyourth streets q The American Institute is permanent headquarters in the Cooper Un-ion. It claims to have done considerable for the advancement of science and art. the Institute for six years, at a cost of \$20,000 a year. There are three acres under cover, and the ground rent alone is \$13,000. When the exhibition is not taking place, the Rink is reuted for various purposes. Barnum had it for s while progress, which is generally for about two \$1,200 to \$1 800 for the same length of

Goods are on exhibition from all parts

of the United States and when licenses are police for, exhibitors are allowed to sell. President and Treasurer have it in their like place seems like some foreign bon power to grant free tuition in cases where marche. Upon entering the first thing they think it advisable.

All the school children go there in the morning and afternoons, and all the mechanics and their wives and sweethearts in the evenings. LITERARY NOTES. H. Z. - Bres.

I was about to say a few words concerning the bound volume of St. Nicholas but letter from Charles Dudley Warner to the publishers of that magazine, chapts its praise so much better than I could that I quote it in full. Mr. Warner and his wife spent the few last days before their depart ure for Egypt in this city, during which he wrote the following to Scribner & Co.
"The first year of the St. Nicholas more than in the bound volume, with its with magazines. The drains that cross-birth; and in the bound volume, with its and re-cross the hill cut it up into immense glory of red and gold, we have what may said re-cross the hill cut it up into impend the called a permanent addition to the liter. ature of the young. I have watched the magazine every month of its existence and have seen its beauties of pen and pencil unfold, but I am surprised now that it be comes a book—and as hundsome a book as St. Nicholas himself can hope to find on Christmas; by the variety and wealth of the contents. Never before, I think has an Mr. J. Cockwat, foreman, has been in promuch literary and artistic, talent co-operated in the service of children, and I will

and Tompkins and the betteries on the Island. It is doubtful, it there is a flow harbor in the world than that on which New York is built, and notwithstanding its immense size, it is no well protected

way over the bout, but it caused the wildlown into a thousand fragmental tindie

g-nuine enthusiasmily the power and purity of his chest notes. If there is any one hing above another that the American opera goer adores it is a chest "C." A tenor might have the sweetest and smooth that an enemy's vessel could not approach the city without being completely ridded with shot and shell. The forts we distrate with shot and shell. The forts we distrate allorable note. There is no excitement were Tompkins and Wadsworth. From the Bay, Fort Tompkins has more the appearance of earthworks than that of a fort. We are so used to the old fashioned round fort, that the outside appearance of the new kind is likely to decrive us. All one sees from the Bay is a hill covered with magazines. The drains that cross centible to some the sweetest and smooth est voice in the world, but he would not satisfy our audiences unless he gave that allorable note. There is no excitement about a voice of even quality; we want to hear those bursts of song that reach the top of the scale. He soon discovered what form was that his sudience wanted and he have then his highest chest notes whenever there was an opportunity, and of conversity with magazines. The drains that cross centible to continue to see the sound smooth of the world of the wor ceptible to appleuse, therefore there is too much for success upon sudden ont-bursts rather than upon careful singing. His voice is clear, flexible, strong and of sympathetic quality, but not at all pus-cionate. Carpi sang the music of his role beautifully and I run no risk in saying, that before he leaves this country, he will have sung himself into a strong and lasting

it can be made any better, and it the child a dozen times if going through the place seems to be no doubt among the business to change the kind of children in this country. The name of Dr. Holland's new serial through the place of Nuremburg, said that he could almost the will appear in the January the construction of the valids was so similarly the construction of the circumstance of the circums wtory which will appear in the January the construction of the visits was so similarly the construction of the construction of the visits was so similarly the construction of the construction of the construction of the visits was so similarly the construction of the constru the fort and on the first floor. There is two, and those who have kept two find one sery little woodwork about the fort, and the whole building is made fireproof. We climbed down the parapets and looked down upon Fort Wadaworth. The height a immense, and the men at the root of the hill boked no obigger than Tom Thumb, and the piles of cannot balls seemed about the size of a dash of buckleberries. The gun platforms are all up but the guns are not mounted. Fifteen inch Parrots, smooth burse will be used. These guns will inrow a ball seven miles, but they will not do much damage further than five miles.

Desultory.

NOTES ON ADVERTISING. o cure will times - apply an advertise.

All who advertisement to do that had all who advertise do not get rich, but eclous lew get rich without it.

The world is full of advertising, yet The world's memory is short a it will cker if he advertises.

If you would note the changes of the on, watch the advertisements | Dealer n stoves don't announce their stocks in ne silent before Christmas.
